

Bluejay Diagnostics and Argonaut Manufacturing Services Announce Strategic Partnership

June 2, 2026

ACTON, Mass. and CARLSBAD, Calif., June 02, 2026 (GLOBE NEWSWIRE) -- Bluejay Diagnostics, Inc. ("Bluejay" or the "Company") (NASDAQ: BJDJ), a medical diagnostics company focused on near-patient testing for critical care, today announced a strategic partnership with Argonaut Manufacturing Services ("Argonaut") to support the advancement of Bluejay's Symphony™ platform.

This partnership is designed to support Bluejay's broader efforts to establish scalable U.S.-based manufacturing capabilities aligned with its ongoing clinical development programs and future commercialization objectives. In addition, the partnership is intended to strengthen Bluejay's future commercial infrastructure by supporting broader product distribution across the United States, enhancing supply chain resilience, and reducing potential risks associated with international sourcing and import tariffs. The collaboration is also intended to mitigate risks associated with Bluejay's current reliance on overseas manufacturing by establishing domestic manufacturing capabilities that can provide greater operational control, business continuity, and supply chain security. By leveraging U.S.-based manufacturing and distribution capabilities, Bluejay aims to improve operational flexibility, support future market demand, and further enhance its ability to commercialize innovative near-patient diagnostic solutions for critical care settings.

"We are pleased to partner with Argonaut as we continue to advance the Symphony™ platform," said Neil Dey, President and Chief Executive Officer of Bluejay Diagnostics. "This collaboration reflects our commitment to building a scalable and quality-focused operational foundation as we progress toward key commercial milestones."

"Argonaut is committed to partnering with innovative companies to support the advancement of differentiated diagnostic technologies," said Rick Hancock, Chief Executive Officer of Argonaut Manufacturing Services. "We value this collaboration with Bluejay Diagnostics and look forward to supporting their efforts as they continue to develop solutions aimed at improving clinical decision-making in critical care settings."

About the SYMON Clinical Study Program:

The SYMON Clinical Study Program includes SYMON-I (clinicaltrials.gov ID NCT06181604), SYMON-II (NCT06654895), and SYMON-III (NCT07425587). SYMON-I is a pilot study to determine IL-6 levels associated with various endpoints, including, but not limited to 28-day all-cause mortality and in-hospital mortality. The SYMON-II study is the pivotal study to validate the outcomes of the SYMON-I study, which the Company plans to use to support a 510(k) application to the FDA. The SYMON-III study is a pilot study to determine IL-6 levels associated with patients presenting with increasing severity of infection in the emergency department and risk of developing sepsis.

About Bluejay Diagnostics:

Bluejay Diagnostics, Inc. is a medical diagnostics company focused on improving patient outcomes using its Symphony System, a cost-effective, rapid, near-patient testing system for sepsis triage and monitoring of disease progression. Bluejay does not yet have regulatory clearance for the Symphony System, and we will need to receive regulatory authorization from the U.S. Food and Drug Administration before Symphony can be marketed as a diagnostic product in the United States. Bluejay's first product candidate, an IL-6 Test for sepsis, is designed to provide accurate, reliable results in approximately 20 minutes from 'sample-to-result' to help medical professionals make earlier and better triage/treatment decisions.
